## THE ULTIMATE DOCK

Porta-Dock's Roll-In Docks are the ultimate system for your lake home or cabin. Providing unmatched in- and out-of the water capability, Porta-Dock Roll-In Docks allow for worry-free installation with minimal effort. Constructed of high-quality 6000 series aluminum or galvanized steel for maximum strength and durability, Porta-Dock Roll-In Docks are corrosion resistant and unaffected by weather conditions or UV rays. The modular design allows for endless options and additions to your dock system as your needs and budget grow.

### PROVEN SUPPORT AND STABILITY

Full width axles and cross chains come standard on Porta-Dock aluminum roll-in docks.

# JUMP IN *for* ENDLESS LAKE TIME

## ALUMINUM ROLL-IN DOCK FEATURES

- Full-length truss rods for maximum strength
- Standard dual-winch system for easy leveling
- 2" galvanized full width axle
- High-density molded wheels
- Cross chains for added stability
- Vertical Lift Members (2" x 4.5" VLM) are constructed of aluminum and include a decorative cover
- Lightweight, removable decking panels sit flush within the dock's frame
- Frame center tube for added strength and decking support
- Flush mount decking provides seamless transition from decking to dock frame
- Dozens of accessory options available to fit your lifestyle

PROUDLY MAKING DOCKS SINCE 1966

LORE, BRICE, BOB, AND BRIAN GILLMAN CIRCA 1985

## MADE *for* GENERATIONS

### LAKE TIME HAS ALWAYS BEEN FAMILY TIME

In 1966, from the humble beginnings of his garage, Bob Gillman knew there was a better way to engineer a dock; a dock that was easier to install and could be built to last allowing families to create a generations worth of memories of time spent at the lake.

Today, the innovation that sparked the first-ever roll-in dock on the market continues through the passion of his family (pictured above). As a Midwest leader in docks, lifts and accessories, Porta-Dock's dedication remains focused on living up to Bob's commitment to products that are easy to install, easy to enjoy, and above all built to last a lifetime.

# CRAFTED *for the lake* BUILT TO LAST

## DROP DOWN CANOPY

Our one piece canopy attaches to any Porta-Dock lift canopy to create a “garage-like” enclosure. It provides added protection to your watercraft, boat, or pontoon while in the lift. Easy to attach by mounting to existing canopy frame. Our standard full mesh end canopy allows for deeper coverage while still allowing for air to pass through.

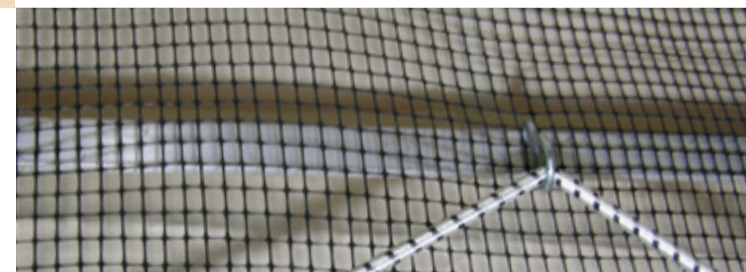

## CANOPY FEATURES

- Adjustable aluminum framework
- Double aluminum tubing runs the full length of the top
- Heat-sealed creating strong, long-lasting seams
- TOP GUN® acrylic coated polyester marine fabric
- Easily cleans with mild detergent and water
- Comes standard with a full-mesh end (on boat and pontoon lift canopies only)

### BATTERY TRAY CANOPY MOUNTED

A battery bracket that allows a 12 volt battery to be mounted onto a Porta-Dock canopy. Keeps a battery for a DC power unit off your dock. Fits all Porta-Dock canopies.

### BIRD PROOF NETTING

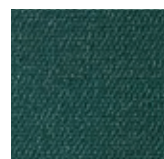

Durable, lightweight, rot resistant and waterproof mesh prevents birds of all species from nesting under your canopy. Installs in minutes.

CARIBBEAN BLUE

BURGUNDY

## CANOPY COLORS

All Porta-Dock TOP GUN® and vinyl canopies come with a 5-year warranty and the canopy offers maximum depth, giving your boat exceptional protection from the elements.

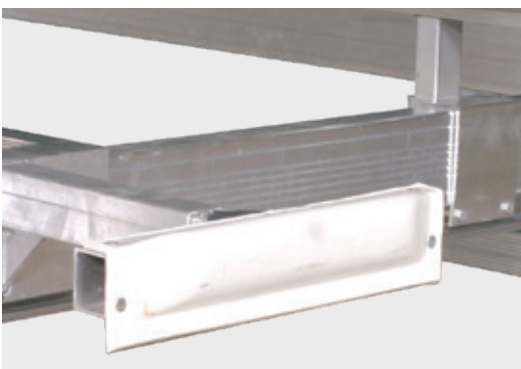

## LIFT STEP

Get in and out safer and easier.

## GUIDE ONS

Full-length padded guide-ons aid in proper boat placement on lift.

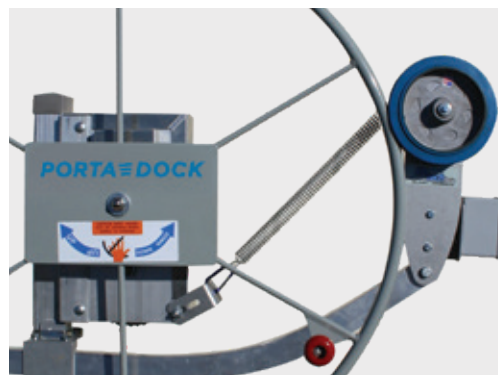

## MOTOR STOP

Ensures the safety of your lift and motor.

## BOAT STOP

Prevents your boat from overrunning the lift.

## MOTORIZED WINCH KIT

Designed for optimum strength and ease of use, each motorized winch kit removes the strain from your lift and provides generous clearance and access. Adapts to existing lifts. Available as 12, 24, or 110 volt power. Remotes and solar panels optional on most models. See dealer for details. Available as a manual or auto stop without a key fob.

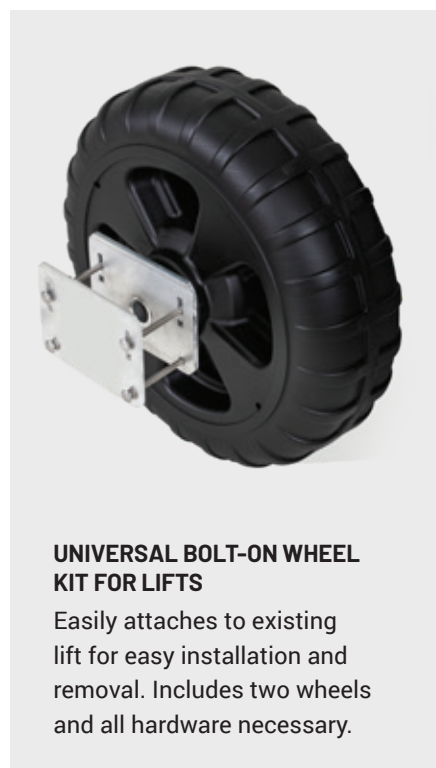

## PONTOON STOPS

Assists in positioning your boat into the proper location on the lift. Adjustable to accommodate any style of boat.

## MAINTENANCE-FREE PONTOON GUIDE

Assists in positioning your boat into the proper location on the lift.

## UNIVERSAL BOLT-ON WHEEL KIT FOR LIFTS

Easily attaches to existing lift for easy installation and removal. Includes two wheels and all hardware necessary.

## 12 & 24 VOLT WATT SOLAR PANEL SYSTEMS

Our solar charging systems are made from high quality, more efficient Monocrystalline Solar Cells that also provide a clean, uniform look. Each panel is enclosed in a screw-less anodized aluminum frame and tempered glass with a water tight junction box and blocking diodes.

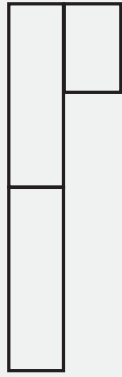

\*Mounting arm and brackets included
